

Who's Watching Your Kids?

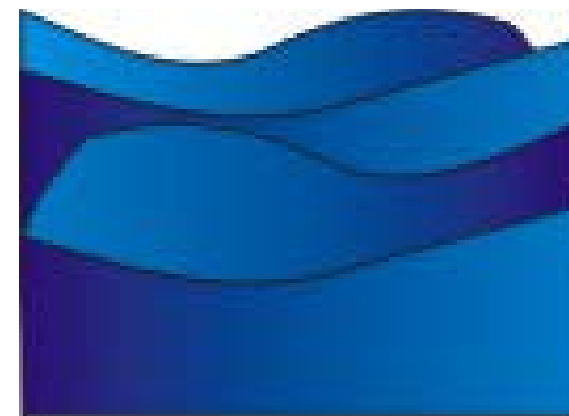

When your **family** is around the **pool**, lake, or river be sure an adult is **watching** the **children**.

Don't assume that someone is paying attention, because maybe **no one** is.

Designate an adult "WATER WATCHER" for 15 minute shifts.

Make sure your children are safe, make sure you're watching while they are around water.

There is no substitute for your supervision.
